

Real-time animation of human characters' anatomy

The following questionnaire is part of a research on Computer Graphics Animation. This is a research project being conducted by Aaron Sújar Garrido at Rey Juan Carlos University.

You are invited to participate in this research project. However, your participation in this research study is voluntary. Indeed, you may choose not to participate. If you decide to participate in this research survey, you may withdraw at any time.

The procedure involves filling an online survey that will take approximately less than 5 minutes. Your responses will be confidential and we do not collect identifying information such as your name, email address or IP address. To help protect your confidentiality, the survey will not contain information that will personally identify you. The results of this study will be used for scholarly purposes only.

The survey questions will be about the assessment of the quality deformations produced by our software. Please, take your time and rate each image.

If you have any questions about the research study, please contact me at aaronsujar@gmail.com.
